Dear Masti Nights UK Team,

I am writing to you from FactCheckZone (<https://www.factcheckzone.com/>), an independent fact-checking organization. We are currently investigating the context of a video clip that is widely circulating on social media in South Asia.

According to our digital analysis, this video was originally posted on your Instagram profile (@mastinightsuk) around October 10, 2024, with the caption: "Bollywood takeover at @studio338 🥳..."

We have noted that the primary video links from that period (e.g., <https://www.instagram.com/reels/DA8S98mUnD/>) appear to be broken or removed. However, we have found traces of the same footage in other promotional content on your Facebook page (Link: <https://www.facebook.com/mastinightsuk/videos/1473970947496778/>).

To maintain our standards of Non-Partisanship and Transparency, we request your clarification on the following:

Confirmation of Publication: Can you confirm if this video was originally published by your official account?

Current Status: Is the video still available on your platform, or has it been removed/set to private?

Reason for Privacy/Removal: If the video has been removed or restricted, could you please share if this was due to routine content management, a privacy request, or any other specific reason?

The purpose of this inquiry is to establish the original context of the video and prevent it from being misused in political or personal misinformation campaigns.

We would appreciate your response by Friday, February 21, 2026, at 5:00 PM (GMT) to include your statement in our upcoming report.

Best regards,

Editorial Team
